ABOUT AICC

Asowad International Construction Company (AICC) provides high quality Engineering, Procurement and Construction (EPC), Industrial Support, and Equipment Rental services to a broad range of commercial and industrial clients throughout the Kingdom of Saudi Arabia. Anchored by loyal personnel who are dedicated to providing superior service, and grounded in the philosophy that honesty and integrity are as important as the bottom line, AICC has enjoyed a solid reputation. Schedules and budgets are meant to be kept, and we strive every day to do so.

Our success is due to our team's dedication to excellent work, customer service that exceeds expectations, and a safety program committed to zero-accident operations. Honesty and open communication empower our workforce, and it shows in our work across the Kingdom.

AICC has the ability to self-perform many aspects of an industrial construction project, and the operational strength of the organization ensures each client of our ability to always perform – from groundbreaking to ribbon cutting, and through the warranty period.

In the end, our success in this business is measured one project at a time. After the completion of each project we undertake, there must remain a satisfied client – one who will ask us back for the next project and recommend us to others.

Experience a new dimension art of style with AICC!

VISION

To be a world-class construction company committed to total customer satisfaction and enhancing clients' value, by building on our strengths - innovative execution, superlative quality of service, cutting-edge technology, timely completion and demonstrating the highest standards of workmanship and ethical practices.

MISSION

- ☐ To be a leading industrial construction and support company in the Kingdom of Saudi Arabia.
- ☐ To become the customers' most preferred choice by attaining excellence in quality and timely completed value-added projects.
- ☐ To create customer partnerships founded on mutual respect, professionalism, integrity, dedication and sincerity exceeding clients' goals and expectations.
- ☐ To execute and deliver projects economically with uncompromising quality and safety standards to our clients.
- ☐ To create a culture that excites our workforce in pursuit of excellence through innovation, differentiation and continued learning.
- ☐ To contribute to safety to improve the quality of life on every jobsite.
- ☐ To identify and mitigate all the environmental impacts arising from our activities and comply with applicable environmental norms.
- ☐ To contribute to the development of the local community and society at large as a part of our corporate social responsibility.

OUR VALUES

1. **Humility & Respect**
   Asowad is consistently humble in our approach to and interactions with people. We treat every person with respect at all times, unconditionally.
2. **Achievement Drive**
   Asowad has an urge that drives us to intensely focus on performance and act decisively with high energy to achieve the desired results.
3. **Integrity**
   Asowad chooses to be honest in all our Business Interactions and Transactions and remain steadfast even when challenged. We strive for consistency between - what we Think, what we Say and what we Do.
4. **Organization Before Self**
   Asowad recognizes that organization interest is supreme, above individual preferences and goals. In all our decisions, actions and dealings we put the Organization before self.
5. **Positive Attitude**
   Asowad always demonstrates a 'can-do' mindset and engage to deliver organizational goals. We look upon challenging circumstances as opportunities to enhance our capabilities and find ways of achieving.
6. **Accountability**
   Asowad owns up to our words, actions and outcome. When we commit to do something, we own it and we do it - decisively and responsibly.
7. **Teamwork**
   Asowad works harmoniously with a shared vision, energized by our collective talent. We Trust, Listen to, Share with and Empower team members and take collective responsibility for the results.
8. **Continuous Learning**
   Asowad strives to continuously learn and consistently set higher standards of performance. We learn together on a day-to-day basis from each of our stakeholders, both internal and external. We change to learn, and learn to change at a fast pace in order to excel; ultimately creating an edge in everything that we do.

Quality Policy

It is the policy of Asowad International Construction Company (AICC) to provide services related to “Project Management related to Engineering and Construction, (CIVIL, HVAC, Electrical and Instrumentation Contracting)”. AICC is committed to comply with the requirement of the customers and to continually improve the effectiveness of the Quality Management System. It must be clearly understood that this Quality Policy, Quality Manual and associated Procedures and systems are mandatory on all staff.

As part of our strategic direction, stated in our Vision and Mission, we are committed to;

- Provide services that meet Customer’s full requirements.
- Meeting all relevant statutory and regulatory requirements.
- Continually improving the effectiveness of our adopted Quality Management System in accordance with ISO 9001:2015.
- Review our objectives and achievements periodically for continual performance improvement of processes.
- Plan and evaluate our processes via consideration of the associated business Risk.
- Ensure that this Quality Policy is communicated to all concerned Departments and understood by everyone within Asowad International Construction Company (AICC).
- Periodically review our Quality Policy to maintain relevance with International Standards.
- Maintain the flexibility to integrate other related management system requirements.
- Maintain the prestigious position as one of the best Company in the Kingdom of Saudi Arabia.

HSE Policy

Asowad International Construction Company (AICC) is committed to strive for “Project Management related to Engineering and Construction, (Civil, Building, HVAC, Electrical and Instrumentation Contracting)” or if possible exceeding, the current (and if applicable any in the future foreseen) standards, demands and expectations of customers and government regarding Health, Safety and Environmental aspects.

Undertaking our activities goes along with high responsibility, competency and professionalism, so in order to realize our commitment and maintain our leadership position in this business we’ve established a structure that includes all the organization’s activities and describes the processes including the aspects of Health, Safety and Environment.

Our policy is established on the following items:

- We operate our workplaces to comply with Health, Safety and Environment applicable local and global regulations, and with the policies of our group using best practice as a guideline.
- We’ll ensure that the risk associated with our activities and services to employees and other interested parties, surroundings and the information and goods entrusted to us are known and controlled in a responsible manner.
- We’ll maintain the best possible Environmental, Health & Safety performance, and in order to achieve this Standard, prevent occupational injuries, illnesses and pollution.
- We’ll establish, implement and maintain a framework to measure our HSE objectives and targets and to ensure the continual improvement of our HSE program and Documented Management System.
- We will review our policy periodically to ensure its adequacy and suitability and we’ll communicate this policy to all employees and interested parties.
- We believe that our employees are our greatest asset and its part of our policy to ensure that everyone is aware of his vital role for the continual development of their welfare within our company by participating in our periodic scheduled training programs.
- We expect in return that every employee performs his tasks in a safe and responsible manner and the organization will do its utmost best to provide the necessary means for protection. Employees, stake holders, neighbors and those who work with us are encouraged to participate and discuss concerns in a transparent way and to take part in the continuous improvement programs through the available communication methods.
